"I am truly delighted with this latest launch, which once again confirms the vitality and creative energy of Cantiere delle Marche," says Vasco Buonpensiere, co-founder and CEO of Cantiere delle Marche. "Our shipyard continues to demonstrate its ability to interpret and redefine the concept of the explorer yacht in multiple ways, while remaining steadfast in the values that have always distinguished our builds: quality, reliability, and robustness. This achievement is yet another testament to the talent and dedication of our entire team."

The 130-footer, the flagship of the series Acciaio, is a four decks explorer yacht featuring exterior design by Hydro Tec and interiors by Giorgio M. Cassetta.

"The interiors have been conceived to be contemporary and fresh, never pretentious or formal" affirms interior designer Giorgio M. Cassetta. "On the contrary, they exude a playful and vibrant spirit, creating an atmosphere that feels both inviting and full of character. Every detail was designed to balance comfort with personality, offering an environment that is elegant yet delightfully relaxed."

This bold explorer yacht features an imposing and flared bow to intercept high seas and a sheer line that smoothly flows down creating a sophisticated yachting style. This flowing feature is replicated in the fashion plates that effortlessly glide to the main, upper and sun deck from above, framing strip windows.

CANTIERE
DELLE MARCHE
explorer's attitude

ACCIAIO 130

With a total length slightly above 40m, a beam of 8m and a displacement of around 388t, this explorer yacht has an extremely efficient hull with bulbous bow to keep fuel consumption to the lowest levels while granting a smooth ride for maximum comfort for both Owner and guests. Two Man D2862LE delivering 749kW each - with Catalytic Reduction System in compliance with IMO Tier III standards – and fuel capacity above 54 000 litres, will allow a range of around 5000nm at 10 knots.

"We are proud of the successful launch of Acciaio 130 by Cantieri delle Marche," says Richard Kaye Project Manager of Arcon Yachts. "This is our third Acciaio model built in collaboration with CdM. We value this continued partnership and the consistent quality and performance resulting from our joint efforts."

More information will be released soon, stay tuned...
